Summary

Technology professional with nearly two years of Oracle experience supporting product delivery through requirements clarification, workflow analysis, and collaboration with Development and Product teams. Supported approximately eight releases and coordinated documentation corrections affecting 40 unpublished APIs. Holds the Google Project Management Professional Certificate, with portfolio experience defining ReleasePilot's product strategy, PRD, and MVP backlog.

Experience

Oracle India Pvt. Ltd. 01/2025 – Present
QA Analyst 1 – Product Development *Bengaluru*

- Worked with **Development and Product teams** to clarify expected behaviour across Payments, Tax, VAT, and customer/order workflows, using functional knowledge to support feature validation.
- Identified **40 unpublished APIs** incorrectly included in product documentation and OpenAPI specifications; escalated the issue and coordinated correction, addressing a gap spanning approximately four releases.
- Supported approximately **eight releases**, executing around **40 critical regression cases per release**; investigated discrepancies and worked with developers to verify corrections before delivery.
- Explained existing product functionality to developers during a **state-code expansion walkthrough**, helping establish a shared understanding of business flows and documentation gaps.
- Designed a **Codex-assisted workflow** translating Jira stories, related bugs, and product documentation into structured test cases and executable checks, improving consistency between requirements and validation.
- Contributed reusable automation methods and **10–15 Java/Selenium scripts**; parallel execution reduced estimated batch runtime from **60 minutes to 5–10 minutes**, supporting faster validation.

Allied Market Research 03/2024 – 06/2024
Research Analyst *Remote*

- Conducted quantitative and qualitative research for **60+ industry reports**, synthesizing market trends and insights to support strategic decision-making.
- Built dashboards and visualizations that reduced reporting time by approximately **30%**, turning research data into accessible insights for decision-making.

Core Skills

Product & Delivery: Requirements Analysis, Workflow Validation, Documentation Review, Release Support
Collaboration: Stakeholder Communication, Technical Walkthroughs, Issue Escalation, Cross-Functional Follow-Up
Analysis & Reporting: SQL, Excel, Market Research, Dashboards, Data Validation
Tools: Jira, Git/GitHub, Codex, Postman; Google Project Management Professional Certificate
Portfolio Practice: PRD, Product Strategy, MVP Backlog, User Stories, Acceptance Criteria, Release Decision Rules

Product & Academic Projects

ReleasePilot – Release Quality Management Platform
GitHub Repository — View Live Demo

- Defined a **product strategy, PRD, MVP backlog, and Jira delivery documentation** for a release-readiness workspace; connected requirements, test coverage, execution evidence, and defects in a working application.
- Translated release-quality needs into **GO/NO-GO decision rules** and human approval for AI test drafts; implemented a live Java/Spring Boot and React/TypeScript prototype to demonstrate the end-to-end workflow.

Breast Cancer Classification – College Team Project (2025)
GitHub Repository — View Live Demo

- Led a **two-person college project with equal contributions**, sharing code implementation, review, and deployment for histopathology classification using a custom CNN and ResNet50 in TensorFlow/Keras.
- Contributed to code review and deployment of the **Streamlit demonstration**; project includes augmentation, class weighting, model evaluation, and **OpenCV sample-image inference**.

Education

GITAM University Graduated 2025
Bachelor of Technology – Computer Science and Engineering *CGPA: 8.7/10*

Certifications

Google Project Management Professional; Oracle Generative AI Professional; Oracle AI Foundations Associate.

Achievements

- **2nd Place**, Code-A-Thon, GITAM University (150+ teams).
